

## **Church Of The Train Wreck Philosophy**

"Be prepared for train wrecks... be ready to help others who have left the track."

*In life we're all going to encounter train wrecks of one sort or another. What's important is figuring out a way to get the wheels back on the track with the train heading in a better direction than before – without eliminating all risks and adventures. A good way to get the wheels back on track is to learn from the wisdom and courage of the common man.*

*Every so often we meet - or read about - or hear about - people whose stories are absolutely inspiring. Often times, at least for a little while, these stories give us new courage to face our own challenges. However, too often, they become forgotten memories.*

***AT THE CHURCH OF THE TRAIN WRECK, WE WILL DOCUMENT SOME OF THE INSPIRING STORIES THAT HAVE PASSED OUR WAY AND HOPEFULLY, RECALLING THEM FROM TIME TO TIME, THEY WILL HELP US AND OTHERS STAY ON TRACK OR GET BACK ON TRACK.***
